"Oliver" No. 1250 Bench

"Oliver" No. 1251 Bench

"Oliver" No. 1255 Bench

"Oliver" No. 1256 Bench

Material: We use clear, tough and close grained Michigan Hard Maple, thoroughly air and kiln dried. After kiln drying we store in a hot room until used.

Construction The tops are built up of narrow strips well glued and bound by our special spiral grooved dowel construction. End bolster tenoned in

the tongue being end grain, bolted in place. Full mortised and tenoned and bolted joints are used in the frame.

Equipment Regularly equipped as illustrated; each bench with one Oliver Vise, adjustable, metal planing stop, steel bench dog, tool rack.

Finish Bench tops are finished with oil and varnish. Frames and drawers are varnished; drawers varnished inside.

Trimmings Solid cast brass drawer pulls and master keyed locks on all drawers are regular.

Service The benches shown in the circular are stock benches. Prices on special benches will be quoted on receipt of specifications. Our factory is especially well equipped to do this work. It is our aim to make every bench an Oliver Salesman.

General Description of No. 1250 Series Benches All tops are 52" long, 22" wide, 2 $\frac{1}{4}$ " thick and 32" high. The built up portion is 13" wide and tool well 8" wide. Tool rack is set flush with table. Legs and girts are 2 $\frac{3}{4}$ " x 1 $\frac{3}{4}$ ". All large drawers are 30" wide, 16" deep and 5" high. All small drawers are 14" wide, 16" deep and 5" high.

Code	Bench No.	Drawers	Oliver Vise	Weight
Hiansy	1250	None	either No. 159-B or No. 153-B	200 lbs.
